Mia Gogna has trained in ballet since she was two years old. At 11 she came to WSPA and has trained in ballet, contemporary and jazz. These styles have taken her all over the country, for dance competitions such as NYCDA, Onstage and In10sity. For three years she has been a teacher aid for ballet. During that time she learned just how much she loved passing her knowledge and love for dance to the students. And she continues to do that in all the classes she teaches.
